

12th BBCC

Bioinformatics and Computational Biology Conference

Naples, Italy, December 18-20, 2017

<http://www.bbcc-meetings.it/>

Visit the web site for information about invited speakers and available organizative details.

The Scientific Committee and the Organizers of the “12th BBCC - Bioinformatics and Computational Biology Conference” invite to submit contributions for oral and poster presentations.

The following sessions are planned:

- molecular simulations
- omics and inter-omics data mining
- bioinformatics and computational biology for industry
- combinatorial optimization in molecular biology
- metagenomics
- agri-food applications
- health data analysis

Scientific contributions in all topics in the Bioinformatics and Computational Biology field are welcome, as the following not-exclusive list:

- Algorithms for Biology
- Databases
- Genomics
- Molecular Evolution
- Next Generation Sequencing
- Pharmacogenomics
- Protein structure and function
- Proteomics
- Systems Biology
- Technology Transfer
- Transcriptomics

Abstract submission requires that after the acceptance notification, the presenting Author register to the conference (one abstract for one registration).

Conference Deadlines (dates may change for organizational reasons):

September 11th, 2017: Announcements of General Program, Committees, Invited Speakers

September 11th, 2017: Call for abstracts. Opening of submission

October 16th, 2017: Abstract submission closed

October 18th, 2017: Opening registration

October 31th, 2017: Acceptance notification and Program announcement

November 18th, 2017: Early registration closed

Post-Conference publications (*the following dates could be modified for settings after discussion with Authors at the conference*):

January 31th, 2018: deadline of full article submission for publication in BMC Bioinformatics Supplement

April 2018: closing of article evaluation process by BBCC Committees, all material transferred to BMC staff for final decisions

May-June 2018: Publication of BMC Bioinformatics Supplement
