

15th BBCC

Bioinformatics and Computational Biology Conference

Royal Palace Portici, Naples, Italy

November 16th-18th, 2020

<http://www.bbcc-meetings.it/>

FIRST CALL – July 1st, 2020

The Scientific and Organizing Committees of the “15th BBCC - Bioinformatics and Computational Biology Conference” welcome contributions in all topics related to Bioinformatics and Computational Biology and covering all biological fields of interest such as Environment, Agri-Food, Health, in the framework of a sustainable development.

Oral communications and posters/short presentations are encouraged. Suggested but not exclusive topics:

- omics, meta-omics and inter-omics
- data science and big data
- structural bioinformatics and computational biochemistry
- systems & synthetic biology
- combinatorial optimization
- transferrability and industrial applications
- modelling
- novel and challenging methodologies

After the notification of abstract acceptance, the presenting author will be required to fill in the conference registration form. Each contribution must have at least one associated registration in order to be included in the conference program (1 abstract = 1 registration).

COVID19 DEAL: Considering the uncertain situation, the conference organization is planning participation in presence and/or online. Different registration fees will be applied depending on whether participation takes place online or in presence. Refund policy in case of travel cancellation is in definition.

Conference Deadlines (dates may change for organizational reasons)

July 1st, 2020: Announcements of the General Program, Reference Committees, Invited Speakers

July 1st, 2020: Call for Contributions

July 15th, 2020: Opening of submissions

September 15th, 2020: deadline for submission of oral communications

September 30th, 2020: Last day for submission of short communications/posters

October 1st, 2020: Registration opening

October 15th, 2020: Program announcement

November 16-18th, 2020: Conference

Post-Conference activities

After the previous BBCC editions, BMC Bioinformatics Supplements and Research Topics of Frontiers in Genetics have been published. Post-conference publications for BBCC2020 are under definition.
