

## **Title of the contribution**

Authors (please use full first name followed by family name)

Affiliations of the authors

Corresponding author email: .....

A summary of the contributions can be presented with the format of a structured abstract, with Motivation, Methods, Results. To maintain uniformity to the contributions, please use this format and submit your contribution as pdf file. The page uses Times New Roman as font and single space as interline. The title should be centered, size 18. Author names should be centered, size 14. Affiliations and corresponding author email should be centered, size 12. Leave one line empty after the corresponding author email address. The text of the abstract should be left-and-right justified. Do not exceed one page of size.

References can be enclosed in the text by indicating the first author and the year of publication, with both lastnames in case of two authors, and first author followed by “et al.” in case of more than two authors. The References section should report the list in alphabetical order (lastname of the authors) and according to the format in the example (i.e, similar to the format obtained by “Cite” option of PubMed).
